

MOHD HAYAAT ALI

Product Designer - B2B Tools & Digital Operations

mohdhayaat1@outlook.com | +91-7991880020 | +91-7905194153 | Delhi, India | Open to relocate to Dubai, UAE | Portfolio

PROFESSIONAL SUMMARY

Product Designer with 4+ years designing shipped mobile, web, transactional, and operations-heavy products. Strong fit for UAE corporate-services, business setup, and digital operations teams where users need clear onboarding, verification, payments, dashboards, task flows, and service-status visibility. Recent work includes wallet/payment UX that reduced transaction errors by 38%, multi-wallet delegation with spend limits, and B2B operations dashboards across India and Dubai workflows.

PROFESSIONAL EXPERIENCE

Product Designer

FuelBuddy | Gurgaon, India | 07/2023 - 06/2024

- Designed wallet and payment-system UX improvements that reduced transaction errors by 38%, improving reliability across consumer and operational payment flows.
- Introduced a multi-wallet user feature that allowed a primary wallet owner to delegate access, add secondary users, and set spend limits for fleet and B2B use cases.
- Reworked consumer doorstep fuel delivery journey inside a 500K+ user app, reducing ordering from 8 to 3 steps and increasing completion from 62% to 78%.
- Designed franchise web application for fleet, driver, tanker, delivery, dashboard, scheduling, and Gantt-style planning workflows across India and Dubai operations.
- Built Wheels driver app and B2B management flows, reducing monthly driver support tickets by 35% through clearer task, navigation, and correction UX.

Product Designer

I-DOD | New Delhi, India | 07/2025 - Present

- Designing end-to-end mobile app experience for a relationship platform, including onboarding, KYC verification, profile creation, matching journeys, and beta feedback loops.
- Partnering with founders, product, and developers to convert requirements into user flows, high-fidelity Figma screens, prototypes, and implementation-ready UI.
- Iterating through beta testing with 500+ users, incorporating usability feedback to improve onboarding clarity, profile completion, and conversion.

Product Designer

Uncover by Meddo | Gurgaon, India | 03/2022 - 05/2023

- Redesigned appointment booking from 6 to 4 steps, improving completion from 71% to 83% over 8 weeks using Google Analytics tracking.
- Shipped doctor profile redesign that increased profile views by 28% and appointment requests by 15% in a 5,000-user A/B test.
- Conducted usability testing with 12 patients and 8 doctors, synthesising insights for product and engineering teams to guide iteration priorities.
- Contributed to Figma component library, design system documentation, and reusable UI patterns as part of a lean product team.

UI Designer

AcadPlaza | Remote | 06/2020 - 03/2022

- Redesigned course catalog and search experience for a learning marketplace, increasing enrollments by 18% quarter-over-quarter.
- Created responsive web and mobile UI components, wireframes, and style guide patterns for catalog, search, and learner journeys.
